PROFESSIONAL SUMMARY

Innovative and logical, detail oriented and results-driven Full Stack Developer with 4+ years of experience **owning end-to-end delivery** of enterprise insurance platforms using ASP.NET Core, C#, React.js, Node.js, RESTful APIs, and SQL Server. Proven track record of independently leading carrier integrations, mentoring junior developers, and driving measurable performance improvements (89% API response time reduction). Seeking a **Senior Full Stack Developer** role to deliver scalable, high-impact software solutions.

EXPERIENCE & PROJECTS

- Cogitate Technology Solutions – Software Developer** Mumbai
ASP.NET Core, C#, React.js, Node.js, REST APIs, SQL Server, Azure May 2023 – Present
 - Full Stack Development:** Designed, developed, and maintained enterprise web applications across frontend (React.js), backend (ASP.NET Core / Node.js), REST APIs, and SQL Server database layers.
 - React.js & Frontend:** Built reusable components, dynamic forms, data-driven workflows, and interactive UIs using React Hooks; integrated with backend APIs via async operations and JSON exchange.
 - REST API & Backend:** Developed and optimized ASP.NET Core REST APIs for policy operations, business rules, and workflow processing; integrated **3 third-party carrier APIs** for real-time quoting, premium rating, and underwriting.
 - Database & Performance:** Identified and resolved critical SQL Server bottlenecks through query restructuring, indexing, and EF Core optimisation – **reducing API response time from 45 seconds to 5 seconds (89% improvement)**, directly improving application reliability and user experience.
 - Leadership & Mentoring:** Guided and mentored junior developers through technical walkthroughs and **conducted code reviews** to enforce quality standards; **independently owned end-to-end carrier API integration** – from design and development through testing and deployment – without senior oversight.
 - Testing & DevOps:** Resolved legacy application defects; authored NUnit/xUnit/Moq unit tests; **drove** Git branching strategy, Azure DevOps pipelines, and release deployments across Agile sprints.
 - RPS – Insurance Policy Management Platform:** Full-stack insurance platform (ASP.NET Core, React.js, SQL Server) supporting end-to-end policy lifecycle – quotation, binding, issuance, renewal, endorsement, and cancellation – across Homeowners and Condo products in flood and admitted markets.
 - Low-Code/No-Code (LCNC) Insurance Configuration Platform:** Built and deployed organisation-wide LCNC platform (React.js, Node.js) managing **form versioning, underwriting rules, rating factors, fees & taxes** – adopted across the entire organisation to configure and deliver insurance functionality without repeated custom development.
 - Document Generation & Workflow Automation:** Developed API-driven document generation (ASP.NET Core, Azure Functions) **deployed at large scale across the organisation**, automating policy document creation across multiple document types and lifecycle events with event-driven notifications.
- Cogitate Technology Solutions – Associate Developer** Mumbai
ASP.NET MVC, C#, JavaScript, jQuery, Entity Framework, SQL Server May 2022 – Apr 2023
 - Application Development:** Built and maintained enterprise ASP.NET MVC applications – controllers, views, services, business logic, data access, validation, and CRUD – using C#, Razor, JavaScript, jQuery, Bootstrap, and HTML5/CSS3; contributed to UI design and user workflow planning.
 - API & Integrations:** Developed and consumed RESTful APIs; **integrated Dropbox API** for document storage and retrieval workflows; implemented Entity Framework / LINQ queries, stored procedures, and SQL Server operations for business workflows.
 - Testing & Maintenance:** Diagnosed and resolved application defects; authored NUnit/xUnit/Moq unit tests; enhanced modules to meet evolving business requirements.

EDUCATION

- United College of Engineering and Research** Allahabad, AKTU Lucknow
B.Tech in Information Technology CGPA: 8.0 2018 – 2022

TECHNICAL SKILLS

- Languages & Frameworks:** C#, JavaScript, SQL, HTML5, CSS3, React.js, React Hooks, ASP.NET Core, ASP.NET MVC, Node.js, jQuery, Razor, Bootstrap
- Data, Cloud & DevOps:** SQL Server, Entity Framework, EF Core, LINQ, Stored Procedures, Microsoft Azure, Azure Functions, Azure DevOps, Git
- Tools & Practices:** NUnit, xUnit, Moq, Postman, Visual Studio, OOP, Design Patterns, Code Review, Agile, SDLC, Production Support
- Domain Expertise:** Insurance Quoting, Policy Lifecycle, Rating, Underwriting, Fees & Taxes, Product & Carrier Configuration
